

Oren Hoffman | www.oren-hoffman.com

Java & J2EE Developer (2+ years exp.)

orenhoffman1777@gmail.com | 054-7906942 | Tel Aviv

Education

- 2016-2016 **Java JSE & J2EE Programmer certificate (600 hours) | John Bryce**
Courses: Java Core, J2EE (EJB, JPA, JMS, Soup, Rest), JDBC, Spring, Hybrenate, Swing, jBoss, Tomcat Servers, Android
- 2003-2003 **Practical electrician certificate | Ministry of Industry and Trade**
- 2002-2002 **Matriculation certificate | Ha'Gimnasya Ha'Ivrit Hertzliya**

Experience

- 2017-Present **Java Full-Stack Developer | OpenLegacy**
As a full-stack developer/Solution architect, my job is to find the best way to build the design pattern to the web app based on the customer legacy type backend system.

I have built web Apps based springBoot/maven and J2EE/EJB along with authentication/authorization and database infrastructure for enterprise corporations such as FOX Group, AIG , Isracard, CITI Bank and more.
- 2016-2017 **Java2EE Developer | Colored Mind**
Developing a CRM web application based on Java2EE EJB modules and AngularJS, implementing Hibernate with Restful web services, including server administration and database services.

The application has seven different login roles (such as Admin, Salesman, Data Scrubber, etc.) and has the ability to transmit and receive customer data from other companies' CRM with a special API designed by me.
- 2015-2016 **System Administrator & Jr. Developer | BeeComm**
Managing BeeComm's code modules written in VB and optimizing it for each client, implementing credit card companies' API's into BeeComm's software, maintaining Microsoft Access database for BeeComm's clients and writing J2EE data analysis web applications for Beecomm's clients.
- 2013-2014 **Shift manager | FoodBook / Sefer Ha'ochel**

Languages

Hebrew - Native

English - Fluent

Skills

- ✓ Dynamic web applications with Restful web services, Spring Boot and Hibernate, deployed on Tomcat, Wildfly or WebSphere
- ✓ EJB modul applications, including JPA and JMS
- ✓ Desktop applications with Swing and JavaFX
- ✓ Android applications implementing Restful web services
